PROFILE SUMMARY

Full Stack Developer with 1+ year building production React/Node applications; skilled in TypeScript, MongoDB/PostgreSQL, REST APIs, and cloud deployment.

EDUCATION

Guru Gobind Singh Indraprastha University
Bachelor of Technology, Computer Science & Engineering

2022 - 2026
New Delhi, India

EXPERIENCE

Full Stack Developer - Freelancing

Jan 2026 - present

Remote

- Delivered 5 client websites end-to-end using React.js and WordPress within an average 2-week turnaround per project, owning the full cycle from requirement gathering and wireframing through deployment.
- Built 15+ responsive, cross-device landing pages and marketing pages across clients in 3+ industries, maintaining pixel-perfect fidelity to design briefs and limiting revisions to 1-2 rounds per project.
- Ran client communication end-to-end - requirement calls, progress updates, and feedback loops - across 5 concurrent accounts, achieving 100% on-time delivery and repeat engagement from 3 clients.

Full Stack Developer Intern - Milenium Erectors Pvt. Ltd.

Jul 2025 - Dec 2025

New Delhi, India

- Built and delivered end-to-end full-stack web application from requirement analysis to production deployment, ensuring scalability, security, and maintainability across the entire software development lifecycle (SDLC).
- Developed responsive user interfaces and reusable React.js frontend components while implementing backend services, REST APIs, and database integrations; built 8+ reusable UI components adopted across 2 product teams, reducing design-to-implementation handoff from 3 days to under 1 day.
- Completed Jira-based user stories, bug fixes, and feature enhancements in an Agile environment; debugged 10+ REST API endpoints using Postman, identifying missing server-side input validation as the root cause of a 30% error rate, and implemented fixes that reduced failures to near zero within one sprint.

PROJECTS

CodeSyncX - Real-Time Collaborative Code Editor

[\[GitHub\]](#) [\[Live\]](#)

Jan 2024 - Mar 2024

- Architected conflict-aware room synchronization using Socket.IO WebSockets, choosing event-based delta syncing over full-state broadcast to sustain sub-100ms latency across 5+ simultaneous editors.
- Integrated CodeMirror browser IDE with syntax highlighting, auto-bracket closing, and live JavaScript execution preview for 10+ languages; deployed on Netlify and Render with 99%+ production uptime.

Payzo - Full-Stack Peer-to-Peer Payments Platform

[\[GitHub\]](#) [\[Live\]](#)

Oct 2023 - Dec 2023

- Eliminated partial-write failure risk in transfer flows using MongoDB session-based atomic debit-credit operations; secured all financial endpoints with JWT authentication, role-based access control (RBAC), and Zod schema validation across 8+ API routes.
- Designed a JWT authentication system with short-lived access tokens and role-based access control from scratch; structured middleware to intercept and reject unauthorized requests at the API gateway level before any business logic executes.

CryptoRadar - Cryptocurrency Analytics Dashboard

[\[GitHub\]](#) [\[Live\]](#)

Jul 2023 - Sep 2023

- Engineered a client-side caching layer using Context API that batches CoinGecko API responses globally, reducing API calls by 40% and eliminating redundant network requests that previously fired on every component mount.
- Built a multi-currency conversion engine (USD, INR, EUR) with real-time rate switching backed by Google Charts; designed the data pipeline so price-trend visualizations re-render instantly on currency change without re-fetching from the API.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, Java, Python, C++
- Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, WordPress, CodeMirror
- Backend:** Node.js, Express.js, Next.js, REST API Design, Socket.IO, WebSockets, JWT Authentication
- Databases:** MongoDB, PostgreSQL, MySQL, Mongoose ORM, Prisma ORM, Supabase
- Tools:** Git, GitHub, Postman, Docker, AWS, Vercel, Netlify, Render, GitHub Actions, VS Code

CERTIFICATIONS & ACHIEVEMENTS

- Software Engineer Role Certification - HackerRank
- REST API Fundamentals - Postman Student Expert
